INJURED MAN IS HURRIED HERE ON A SPECIAL TRAIN

Albert Charles, Santa Fe Employee at Belen, Struck on Head by Flying Sledge Hammer; Eyeball Ruptured.

Albert Charles, an employee of the Santa Fe railway shop at Belen, who was injured yesterday morning, had a long and difficult recovery. The head of the sledgehammer, striking the right eye, ruptured the eyeball. No one can say that it shall have been fractured—could be found by last night. From indications that had developed up to last night the recovery of the man was contingent only upon whether infection had started in the injured eye.

Charles was rushed to Albuquerque on a special train arriving here at 12:45 o'clock yesterday afternoon. He was taken to St. Joseph's hospital where Dr. W. H. Lovelace, Santa Fe surgeon, treated him. Dr. Lovelace said last night he looked for Charles' recovery unless infection of some sort set in. Owing to the time that passed between the injury and the man's arrival at the hospital, the doctor is uncertain whether infection will or will not develop.

Condition Improving.
However, the injury is serious. Charles of course lost the sight of the injured eye. He was reported to be in a semi-conscious condition when he reached Albuquerque, but his condition was greatly improved last night.

Details of the accident received here are meager. All that could be learned was that the head of a sledgehammer, wielded by a fellow workman, slipped off, striking Charles.

Charles is a native of Italy. He has been in the United States about twelve years. He is married and has one child.

JEWS TAKE LEAD IN RELIEF WORK FOR WAR VICTIMS

Meeting Held at Temple Albert Last Night Organizes Campaign to Raise Fund for Sufferers Abroad.

At a meeting held last night at Temple Albert, which was addressed by Morris Engleman and Dr. Dreschman, two of the most noted Jewish leaders in the United States who are touring the country in the interest of a fund for the relief of sufferers among the Jews of all the European countries, active steps were taken to raise money in Albuquerque for that purpose.

The meeting was presided over by Louis Lifield, the president of the congregation, and was well attended. Dr. Dreschman and MF Engleman both told of the suffering she has been witness to in Europe. The speaker expressed a meeting of the board of directors of the association, expressed himself as to the possibility of some of their brethren in the various countries that are not yet war. Their remarks were given close attention.

Mr. Lifield was authorized to appoint a committee, of which Rabbi Moise Bergson is to be the head, for the purpose of soliciting funds for the cause in Albuquerque.

Dr. Dreschman and Mr. Engleman are touring the country in the interest of the movement, and already nearly \$500,000 has been raised among American Jews. The work is being done under the auspices of the Jewish Relief Committee through the work of Jewish leaders throughout the world, such well known men as Prof. Warburg, C. Ruthven, Leon Krasnow, Harry Fischer and Albert Einstein are identified with the movement.

Notable Program.
In line with the policy the board of directors has arranged a program which will attract the attention of all the people of the country and which will be an inspiration to every man and woman in New Mexico who has the interests of the schools of the state at heart.

Mrs. Cora Wilson-Stewart, who has grappled with the problem of illiteracy in the mountains of Kentucky with such success that she is now recognized as one of the most famous educators in the United States, has been invited to deliver an address at the convention, and while she has not yet definitely stated that she will attend, there is every reason to believe that she will be one of the attractions at the convention.

Martin L. Johnson, the head of the department of education of the University of Wisconsin, has been engaged as one of the principal speakers. He has definitely accepted the invitation and there are no contingencies in regard to the matter.

Ramp Ven Neur Myers, of College Hill, O., known the world over as the author of many histories, and pronounced by Commissioner P. P. Clayton, of the United States bureau of education, as the greatest living authority on the historical aspects of the present war in Europe, has been invited to advise the convention on the subject.

Dr. H. Benson, of the United States department of agriculture, and the leader of the western department of the boys and girls club work of the department, is a certainty as a lecturer on his subject.

George Senator Invited.
A strong effort is being made to secure the presence of Senator George Smith, of Georgia, who is chairman of the United States senate committee on education and who has taken a strong interest in school work, as one of the speakers for the convention.

Senator Smith is a kinsman of Pedro Judge William B. Pope, and the latter has promised to do all in his power to induce the Georgian to come to the convention.

President Coolidge has set \$100,000 as the maximum sum which the association must raise this year. It is "Pik's peak or bust" with him, and he is exerting every energy to bring up the enrollment to that figure. In view of the splendid program that has been outlined and the ever-increasing interest in education that is manifested in New Mexico, there is little reason to doubt that it will be "Pik's peak" and not "bust."

DEATHS AND FUNERALS.

John Lewis, infant daughter of Mr. and Mrs. Michael Lewis, died yesterday at the home of the parents, 102 Appleton avenue. She was 9 months old. Funeral services will be held Saturday at 10 o'clock, and will be conducted until the next examination, at 10 o'clock this morning, with their families. Coffin bearers will be furnished by the church.

Tom Wilson is the name of the boy, who lives with his mother and has a very high opinion of himself. He is in love with the daughter of the local parson, and finally, confident in his own ability, decides to go to New York and was a fortune which will enable him to marry his sweetheart and take care of her in the manner in which she has been accustomed.

Once the boy, Tom, meets types that are to him now strange and alarming. His male acquaintances are mostly including a ticket speculator and a newspaper man, but not really bad. The girl on whom he sets his fancy, however, is a chorus girl, who, impudent in her conduct, entices herself with him just to provoke her lover. His life in the city becomes known to the people at home, he loses his position and ultimately in such disgrace that he contemplates suicide. In the end, however, he goes to a small town and makes a new wife and more sincere love. His experiences in the metropolis, where the hearts of men are treacherous, and the weak found wanting.

"The Country Boy" is an entertainment which can truly be recommended to the most refined theatres everywhere.

The Basque Utility Auto Lock applied to a Ford car protects it from joy riders and thieves. VAUGHAN PLANS BIG PROGRAM FOR TEACHERS' MEET

Illiteracy Problem to Be Met Frankly at Annual Convention in November; Noted Speakers Engaged.

The next convention of the New Mexico Educational Association will come to grips with the problem of illiteracy in New Mexico. There will be no foolish pride on the subject. The experts of the national bureau of education show alarming figures regarding illiteracy in New Mexico, and we know that those statistics speak the truth. We will take pride in meeting this problem frankly and solving it.

In three words Professor H. V. Vaughan, president of the New Mexico Educational Association, and was well attended. Dr. Dreschman and MF Engleman both told of the suffering she has been witness to in Europe. The speaker expressed a meeting of the board of directors of the association, expressed himself as to the possibility of some of their brethren in the various countries that are not yet war.

DR. BOYD BACK FROM CALIFORNIA; PRAISES NEW MEXICO EXHIBIT

Dr. David B. Boyd, president of the University of New Mexico, returned yesterday from a trip of several weeks duration to the Pacific coast, and was busy all day cleaning up the accumulation of correspondence that he found awaiting him on return.

Dr. Boyd was enthusiastic in speaking of the showing that the New Mexico exhibit at the San Diego exposition, "Visitors from Every Part of the United States," made through the New Mexico building was. Dr. Boyd said, "But the interest that the show has in which is displayed to them leaves no doubt that the state will derive untold benefit from the money that it has spent in this direction. I was especially impressed with the personal attention that is given to visitors by those in charge of the building. It is impossible to go away from the New Mexico exhibit with a grrouch—they simply will not let you do it."

Dr. Boyd will remain in Albuquerque until the latter part of August, when he will go to San Francisco to attend the annual association of presidents of state universities on his return to Albuquerque he will be accompanied by his wife and daughter who have been spending their vacation in San Francisco.

MAN WHO HIT COPPER WITH A FLAT-IRON IS GIVEN JAIL SENTENCE

Frank Sandoval yesterday was sentenced by Police Judge Craig to serve thirty days in jail. Patrolman John Masing, not desiring to prosecute him on a felony charge, Sandoval was charged with the charge of assault and battery. Sandoval is the man who struck Maina with a flat iron, inflicting a scalp wound, when the officer was arresting him upon a warrant for which Sandoval's father was responsible.
